In response to Commissioner Cortese's question regarding the current, adopted Plan Bay Area, Mr. Noelting responded that the September 30, 2015 due date for fund project submittals included in the materials, would allow more projects to become eligible, relative to the current Plan.

The following individual provided public comments:

Clarrissa Cabansagan, TransForm, thanked staff for the improvements made to the committed projects policy. TransForm requested that all projects be subject to performance assessments.

The MTC Planning Committee referred the Planned Bay Area Update: Committed Projects and Funds Policy, MTC Resolution No. 4182, to the Metropolitan Transportation Commission for approval.

6. PLAN BAY AREA FORECAST AND MODELING APPROACH

Miriam Chion, ABAG Planning and Research Director, introduced the presentation on forecast methodology. She stated that the California Building Industry Association legal settlement will be addressed at a future meeting.

Cynthia Kroll, ABAG Chief Economist, presented background information and an overview of the development of the growth forecast of population, jobs, and housing for the Plan Bay Area update.

Committee members and Commissioners discussed the following:

ABAG Administrative Committee member Eklund inquired as to the relationship between the Department of Finance (DOF) projects and forecast. Ms. Kroll stated ABAG has been in touch with the DOF. Committee member Eklund also questioned to what extent ABAG is going to ensure that elected officials are going to be engaged in the process. Miriam Chion, ABAG Planning and Research Director, stated that the local planning directors are being asked to present materials to local councils so local elected officials can remain engaged. Additionally, ABAG will keep bringing materials to this forum, the Regional Planning Committee and Executive Board.

ABAG Administrative Committee member Pradeep Gupta emphasized the importance of data consistency in migratory patterns with respect to the regions outside of the Bay Area. Committee member Gupta also requested that the changing patterns of women entering the workforce be included in the labor force participation assumptions.

Commissioner Mackenzie requested the program include a specific presentation to each of the congestion management agencies.

Commissioner Haggerty urged the committees to ensure that the agencies work with other jurisdictions outside of the nine county Bay Area and also look at workforce migration in and out of the nine counties. He expressed concern that the settlement agreement might make this a difficult task, particularly from the Central Valley as it relates to in-commuting.

The following individuals provided public comments:

Bob Glover, Executive Officer, Building Industry Association of the Bay Area (BIA), referenced the letter sent from BIA legal counsel regarding the concerns of the settlement agreement between ABAG, MTC and BIA. The BIA requested a response outlining how ABAG and MTC intend to comply with the settlement as it pertains to this issue.

John Shwark, San Francisco Bay Area Renters Federation (SFBARF), expressed concern for people who are housing challenged and are not taken into consideration in the Plan.

Michael Ege, SFBARF, commented on the exclusion of workforce housing in the Plan.

Michael Tye, SFBARF, commented on the difficulty for technology sector workers to find and keep well-paying jobs in the Bay Area given the Bay Area's very high housing cost.

Committee members and Commissioners discussed the following:

In response to Bob Glover's comment, Committee member Eklund questioned if ABAG or MTC had looked at housing availability and the relationship to the cost of rent over time. Ms. Kroll assured the committees that the changes in rent are being tracked.

Commissioner Rein Worth commented that the Bay Area is challenged with the lack of affordable housing. She also requested the information be broken down by the stages of life.

Commissioner Campos welcomed SFBARF to the committee meeting and said he looks forward to having a good dialogue given the different perspectives on the housing issues they raise.

Commissioner Luce stated that comments heard from the public today reflect reality and experience that the middle class is being squeezed out. He requested ABAG and MTC refocus and reexamine the model used over the years, and look at how they address the issue of housing and affordability.

A quorum of the ABAG Administrative Committee was present at about 9:49 a.m.

The ABAG Administrative Committee next took up Item 4.B.
