Query Parameters: Alameda None All

Date Range: 2018-03-01 to 2018-04-30

SCH#	Lead Agency	Project Title	Description	Document Type	Date Received
2017042021	Alameda, City of	Alameda Shipways Residential Project	The proposed project encompasses 8.1 acres at 1100-1250 Marina Village Parkway in the city of Alameda. The project would demolish existing historic but defunct shipways structures including existing offices and develop a 292-unit residential apartment complex, associated leasing office and common areas, 497 parking spaces mostly in an internal parking structure, and a 2.5-acre public waterfront park. The waterfront park would include an extensions of the Bay Trail, a kayak launch, and a pier to accommodate a water shuttle, in addition to other public amenities.	EIR	4/4/2018
2003022086	Oakland, City of	Jack London Square Redevelopment Project	On March 21, 2018, the Oakland Planning Commission approved a Final Development Permit consistent with the PDP for the Jack London Square Redevelopment Project PUD for site F3. The approvals include a Final Development Permit for a hotel, a Minor Variance for loading, and Design Review. The approvals allow development of a planned hotel, with accessory open space, parking, and ground floor commercial uses.	NOD	3/26/2018
1991103064	Dublin, City of	Zeiss Innovation Center	The Zeiss Innovation Center includes a Planned Development Rezone with a related Stage 1 and Stage 2 Development Plan and a Site Development Review (SDR) Permit. The proposed project will be developed in two phases. Phase 1 consists of a three story 208,650 gross sq. ft. Research and Development (R&D) building with an entry plaza and 664 surface parking spaces. Phase 2 consists of an additional five-story, 224,440 GSF R&D building with 167 surface parking spaces, and a five-story, 1,229 space parking garage. At build-out, the proposed project will include two low to mid rise (three story and five story) R&D buildings totaling 433,090 GSF used for research, development and testing, light assembly and dry laboratories, and supporting office spaces. Other internal uses would include conference rooms, an employee cafeteria, and a demonstration center/showroom on the ground floor. Parking would include one parking garage with 1,229 spaces and 167 surface parking spaces, for a total of 1,396 spaces. The proposed project is consistent with the current General Plan and Eastern Dublin Specific Plan Land Use Designation of Campus Office.	NOD	3/26/2018
2016112035	Western Canal Water District	Western Canal Water District and Richvale Irrigation District Water Transfers from 2018 to 2022	Notes: 1 CD Environmental Impact Report to evaluate effects of water transfers from the Western Canal Water District and Richvale Irrigation District service areas to interested agencies located south of the Sacramento Valley, the San Francisco Bay Area, and south of the Sacramento-San Joaquin Delta. The transfer would originate in Butte and Glenn Counties. The transfer buyers could be in Alameda, Contra Costa, Fresno, Kern, Kings, Los Angeles, Merced, Orange, Riverside, San Benito, San Bernardino, San Diego, San Joaquin, Stanislaus, or Ventura counties.	FIN	3/21/2018
2018038371	Water Resources, Department of	California Aqueduct (CAAQ) Erosion Repair	DFD staff will repair erosion damage at nine locations along the CAAQ. Erosion sites range in size from small rills, to undermined culverts to areas of subsidence. The erosion sites are located on either the primary side or secondary side of the aqueduct. Where necessary, fill material will be brought from the Corral Hollow borrow site and placed at the nearest Check structure along the CAAQ,	NOE	3/16/2018

including Check 2, 6, 7, and 8. These nine sites are located on the CAAQ embankment between the maintenance road and the toe of the CAAQ embankment.

2018038366	Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland	Adoption of Site Cleanup Requirements (Order No. R2-2018-0009) for Stuart Depper, Eric Depper, and former Glovatorium, Inc.	The Site Cleanup Requirements Order No. R2-2018-0009 requires the dischargers, Stuart Depper, Eric Depper, and the Glovatorium, Inc., to design and implement an approved remedial investigation, an approved remedial cleanup plan, and complete a human health risk assessment. The Order also requires the implementation of interim actions, if there is a current threat to human health.	NOE	3/16/2018
2008112107	Union City	Turk Island Landfill Consolidation and Residential Subdivision	The project involves relocation of landfill debris from the 6.3-acre Parcel "C" to the adjacent Turk Island Landfill followed by backfill of Parcel C with clean imported soil and subsequent development as a 33-unit residential subdivision. Off-site improvements to the adjacent Sea Breeze Park are also proposed, including a new play structure, an interpretive trail adjacent to the existing stormwater retention ponds, expansion of the parking lot, and improvements to/refurbishment of some existing facilities. The project site is separated into two parcels that currently contain landfill debris. The site proposed for residential development was known as Parcel C of the Turk Island Landfill, which was closed in 1974, and the adjacent main Turk Island Landfill was closed in 1988.	EIR	3/15/2018
2018038290	East Bay Regional Parks District	Green Transportation Network Upgrade Project (Civicorps Trail Maintenance Project)	The purpose of the project is to increase visibility and safety of more than 150 miles of paved, multi-use Interpark Regional Trails such as the Iron Horse Trail, Contra Costa Canal Trail, Alameda Creek Trail and the Delta de Anza Trail.	NOE	3/14/2018
2018038276	Water Resources, Department of	Del Valle Dam	Installation of two piezometers in the downstreams embankment to replace the malfunctioned piezometers.	NOE	3/13/2018
1991103064	Dublin, City of	Zeiss Innovation Center	The Zeiss Innovation Center includes a Planned Development Rezone with a related Stage 1 and Stage 2 Development Plan and a Site Development Review (SDR) Permit. The proposed project will be developed in two phases. Phase 1 consists of a three story 208,650 gross sq. ft. Research and Development (R&D) building with an entry plaza and 664 surface parking spaces. Phase 2 consists of an additional five-story, 224,440 GSF R&D building with 167 surface parking spaces, and a five-story, 1,229 space parking garage. At build-out, the proposed project will include two low to mid rise (three story and five story) R&D buildings totaling 433,090 GSF used for research, development and testing, light assembly and dry laboratories, and supporting office spaces. Other internal uses would include conference rooms, an employee cafeteria, and a demonstration center/showroom on the ground floor. Parking would include one parking garage with 1,229 spaces and 167 surface parking spaces, for a total of 1,396 spaces. The proposed project is consistent with the current General Plan and Eastern Dublin Specific Plan Land Use Designation of Campus Office.	NOD	3/13/2018
2018038243	Public Utilities Commission	Mobilite NPC2017-124 Alameda small cell network project	Mobilite installs small cell antenna and fiber optic networks to enhance performance of telecommunications networks.	NOE	3/12/2018
2018032027	Fremont, City of	Villas of Mission	The applicant proposes a GPA to change the land use designation of a 0.79-acre site from General commercial to medium density res, a rezoning of the site from C-G to R-3-18, Multifamily res, vesting tentative tract map no. 8220, and a private street entitlement for a new 13-unit residential townhouse development at 36341 Mission Blvd. The project would include three two-story units, 10 three story units, a central common open space area with an outdoor kitchen and seating, landscaped paseo, and a private street. As part of the project, the applicant also proposes to remove six protected trees from the site.	MND	3/9/2018

2001032014	Pleasanton, City of	Pleasanton Downtown Specific Plan	The DSP is the City's guide for development in Downtown Pleasanton, establishing policies and programs related to land use, circulation, infrastructure, historic preservation, urban design, economic development, and the environment. The overarching objective of the DSP remains improving the viability of Downtown while preserving its small -town character and scale.	NOP	3/9/2018
2018038194	California State Lands Commission	Exercise right of first refusal to consider acquisition of federal public lands or right to arrange for their transfer to another entity in the city of Dublin.	Find that it is not in the best interests of the State for the Commission to acquire 78.21 acres of land proposed for conveyance from the US Army Corps of Engineers to Dublin Crossing, LLC, or to arrange for its transfer to another entity; authorize the executive officer, or her designee, to issue a certificate of compliance with public resources code section 8560 for the conveyance of 78.21 acres of land from the US Army Corps of Engineers to Dublin Crossing, LLC.	NOE	3/9/2018
2018038151	Fish & Wildlife #3	6039 Castle Drive (Lake or Streambed Alteration Agreement No. 1600-2017-0529-R3)	CDFW has executed Lake or Streambed Alteration Agreement No. 1600-2017-0529-R3, pursuant to section 1602 of the fish and game code to David Eckert. The project is limited to stabilization and revegetation of the tributary channel and construction of a single family residence with the foundation no closer than 14 ft from the top of the tributary banks.	NOE	3/8/2018
2018038101	Energy Commission	Optimization and Demonstration of JBEI Technologies for the State of California	The purpose of this Agreement is to address conversion technology challenges and biomass strain optimization challenges across volumetric scales or renewable fuel production. The Joint Bioenergy Institute will partner with Aemetis to develop and demonstrate a conversion technology that involves the deconstruction of biomass feedstocks for advanced biofuels production. Research will be completed at the Joint Bioenergy Institute and demonstration of the technology will be completed at both the Joint Bioenergy Institute's and Aemetis' existing facilities. Demonstration activities are at lab scale.	NOE	3/6/2018
2018038100	Energy Commission	Conversion of Wood Biomass to Bio-oil in an Ablative Fast Pyrolysis Reactor	This project will include the installation and demonstration of containized pyrolysis units at the Western Placer County Waste Management Authority for the pilot-scale production of bio-oil from wood biomass.	NOE	3/6/2018
2018038044	Water Resources, Department of	Del Valle Disposal Site Annual Maintenance	DFD staff will perform maintenance activities at the Del Valle Sanatorium disposal site located immediately north of Del Valle Pumping Plant. The vegetation within the fence line will be mowed to expose surface debris. Straw wattles will be placed inside the exterior fence line. Debris found on the surface of the ground will be removed and discarded at the dumpster located at Patterson Pass Yard in Livermore. Fence repair includes replacing the corner post and replacing areas of fence where the barbed wire has been cut. There are no changes to fence line. Access to site is directly off Del Valle Road near the Arroyo Road Staging Area. There will be no staging outside of the project footprint. The work will be within DFD right of way.	NOE	3/2/2018

Date Range: 2018-03-01 to 2018-04-30

SCH#	Lead Agency	Project Title	Description	Document Type	Date Received
2018042011	Martinez, City of	Vine Hill Residential Project	The proposed project is a 92-unit residential subdivision located on approx 26.77 acres north of the intersection of Center Ave and Vine Hill Way. The project applicant has requested approval of the vesting tentative map, preliminary grading and drainage plan, preliminary utility plan, preliminary stormwater control plan, a preliminary tree removal and demolition plan, a conceptual landscape plan, and a tree removal permit. The project site is the former Pine Meadow Golf Course and consists of a former golf course and pro shop, and a currently operating restaurant and bar, and vehicle storage. Existing improvements on the site would be demolished prior to construction of the proposed project.	MND	4/4/2018
2016012058	Contra Costa County	Marsh Creek Road Bridge Replacement Project (Bridge 28C-141)	CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2017-0527-R3, pursuant to section 1602 of the Fish and Game Code to Contra Costa County Dept. of Public Works as represented by Steve Kowalewski. Project is limited to the following activities: replacement of an existing single-span bridge with a new single-span bridge designed to meet current standards. The new bridge will be constructed of pre-cast, pre-stressed, reinforced concrete. The superstructure will rest on cantilever seat abutments that will be founded on spread footings. The existing bridge structure includes reinforced concrete walls that restrict the flows of Marsh Creek. These walls will be removed as part of the Project to open the channel where Marsh Creek flows under the bridge.	NOD	3/26/2018
2018032065	Walnut Creek, City of	Hilton Garden Inn	Tharaldson Hospitality development, the project applicant, is proposing the Hilton Garden Inn. The proposed project would involve demolishing the existing two city-owned buildings and redeveloping the project site with a hotel development on 2.26 acres covering two parcels located at 470-490 Lawrence Way. The proposed project would consist of four-story hotel with approx 72,964 sf of building area and up to 124 guest rooms, 112 on-site parking spaces at grade, on-site guest amenities and landscaping.	MND	3/26/2018
2018032068	Brentwood, City of	Center Pointe Project	The proposed project includes development of six commercial, retail, and restaurant buildings totaling 62,170 sf on the 7.63-acre project site. The six buildings would be constructed as follows: 38,000 sf fitness center (24 Hr Fitness); 5,400 sf commercial with drive-through (two tenants); 4,000 sf commercial/retail (one tenant); 6,510 sf restaurant (one tenant); 3,285 sf drive-through restaurant (one tenant); and 4,975 sf drive-through restaurant (Chick-Fil-A). A 70 ft pylon sign is proposed at then northwest corner of the project site and an additional 50-ft sign is proposed to be constructed west of the proposed fitness center, east of SR 4.	MND	3/26/2018
2016012058	Contra Costa County	Marsh Creek Road Bridge Replacement Project (Bridge 28C-141)	The 1.936-acre project will replace the existing single-span bridge with a new single-span bridge designed to meet current design standards (Contra Costa County Public Works Department, Caltrans, and American Association of State Hwy and Transportation Officials), widen lanes and shoulders and reduce flow restrictions to Marsh Creek.	NOD	3/23/2018
2018032056	East Contra	Phillips 66 Line	Phillips 66 Pipeline, LLC is proposing to conduct anomaly	MND	3/21/2018

	Costa County Habitat Conservancy	200 Anomaly Investigation and Repair, Winter 2018	investigation and repairs at 27 seven distinct dig locations to address a total of 42 anomalies along the existing Line 200 Mainline trunk pipeline in eastern Contra Costa County. The P66 Line 200 pipeline transports crude oil from Kern County to the P66 refinery in Rodeo, CA. This pipeline is regulated by the federal DOT, Resource and Special Programs Administration's Office of Pipeline Safety pursuant to 49 CFR, Part 195.452, which requires P66 to conduct regular inspections and maintenance on its pipeline. This project will allow P66 to conduct needed inspection and maintenance actions on Line 200 to maintain its structural integrity. The 27 digs cover 42 anomalies and will involve temporary impacts to small work areas.		
2016112035	Western Canal Water District	Western Canal Water District and Richvale Irrigation District Water Transfers from 2018 to 2022	Notes: 1 CD Environmental Impact Report to evaluate effects of water transfers from the Western Canal Water District and Richvale Irrigation District service areas to interested agencies located south of the Sacramento Valley, the San Francisco Bay Area, and south of the Sacramento-San Joaquin Delta. The transfer would originate in Butte and Glenn Counties. The transfer buyers could be in Alameda, Contra Costa, Fresno, Kern, Kings, Los Angeles, Merced, Orange, Riverside, San Benito, San Bernardino, San Diego, San Joaquin, Stanislaus, or Ventura counties.	FIN	3/21/2018
2018038374	Caltrans #4	Install 450 ft. MGS (Midwest Guardrail System) - 1Q140 / 0418000208	Install Midwest Guardrail System to separate the on and off ramps. This repair will enhance the structural integrity of the roadway and make the transportation corridor safer.	NOE	3/19/2018
2013012007	University of California	Richmond Bay Campus 2014 Long Range Development Plan	Project will construct an addition of approx. 27,500 gross sq. ft. to the Northern Regional Library Facility (NRLF) at the UC Richmond Field Station. The NRLF Phase 4 Expansion Project will add a fourth high-density shelving module of approx. 23,200 gsf to the existing three phases of the facility and add approx. 4,300 gsf of associated staff work areas for materials processing. The project will be built on land designated for NRLF expansion, adjacent to the existing NRLF Phases 1 through 3.	NOD	3/16/2018
2018032039	Toxic Substances Control, Department of	Chemours Oakley Site Sediment, Soil and Groundwater Corrective Measure Studies	DTSC is considering approval of three Corrective Measures Studies to address the release of Constituents of Concern. The proposed remedial activities would address the releases of COCs in sediment, soil, and groundwater that may pose a risk to human health or the environment. Key constituents of concern that will be remediated include lead, organolead, carbon tetrachloride, CFC-11, CFC-113, 1,2-DCA, tetrachloroethylene, and arsenic. Once these remedies are in place, it is expected that most of the upland area of the site would be redeveloped for industrial and commercial use, although a portion of the upland adjacent to wetland area may be used for recreational use. (e.g. walking trail).	MND	3/16/2018
2018032036	East Bay Regional Parks District	San Francisco Bay Trail at Point Molate	The East Bay Regional Parks District would construct an approx 2.5 mile bike and pedestrian path. The project consists of an approx 2.5 mi non-motorized bike and pedestrian trail at Point Molate. The trail is comprised of Segment A and B and would be constructed in a previously disturbed area that coincides or is adjacent to the old Richmond Belt Railway corridor. Segment A would be constructed within a surface easement granted by Chevron to EBRPD for construction, operation, and maintenance of the trail. The trail is anticipated to be 10 ft wide. Construction of the trail is expected to occur in stages from May through October in 2020.	MND	3/14/2018
2017082033	Antioch, City of	The Ranch Project	The applicant is proposing to amend the City of Antioch General Plan, and construct multiple single-family residential neighborhoods, various public facilities and amenities, and circulation and access improvements, as well as associated infrastructure improvements to serve the proposed planned community. The proposed project includes two scenarios; a Multi-Generational Plan and a Traditional Plan would include all-ages housing, and would not include active adult housing. The project applicant is requesting approval of both scenarios to allow flexibility based upon market conditions.	EIR	3/13/2018
2018038208	West County Wastewater District	LAFCO 17-11 -39 Kirkpack Drive Annexation to	The project consists of annexing 1 parcel to WCWD. The parcel contains a single family residence and has a designation of R-7 (Single Family Residential, High Density). Once annexed, the parcel	NOE	3/12/2018

[West County
Wastewater
District](#)

will be entitled to discharge domestic wastewater into the sewer main upon proper abandonment of their existing septic system.

2018032023	Contra Costa County	Camino Tassajara Bike Lane Gap Closure	The project will widen the existing roadway along four segments of Camino Tassajara from near Penny Lane to Windemere Parkway to provide two 12-ft travel lanes with up to 8-ft shoulders. The total length of roadway where the road will be widened and shoulders will be added is approx 5,400 ft.	MND	3/8/2018
2018038059	Fish & Wildlife #3	Bay Area Products Line, Richmond to Bethany PIM Repairs Project (Lake or Streambed Alteration Agreement No. 1600-2016-0254-R3)	CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0254-R3, pursuant to Section 1602 of the Fish and Game Code to Chevron Pipe Line Company, as represented by Patrick T. Green, CPL Operations Manager, West. The Bay Area Products Line, Richmond to Bethany PIM Repairs project consists of excavation and repair of five discontinuous pipe anomalies. The combined excavation footprint for the five discontinuous sites is 3,564 ft, or 0.08 acres.	NOE	3/5/2018

SCH#	Lead Agency	Project Title	Description	Document Type	Date Received
2017072051	Sonoma County Water Agency	North Bay Water Reuse Program Phase 2	The North Bay Water Reuse Authority is proposing phase 2 the North Bay Water Reuse Program to continue increasing the beneficial use of recycled water and integrated water management. These projects would include construction and operation of treatment capacity improvements, distribution facilities, and storage facilities (seasonal and operational) to provide recycled water environmental, agricultural, and municipal reuse in the San Pablo Bay region, which encompasses approx 318 square miles. Pipeline and pumping facilities would be installed within or along existing roadways. Treatment and storage facilities would be located at or near existing wastewater treatment plants. This recycled water would be used in a manner consistent with title 22, pertaining to the use of tertiary-treated recycled water.	EIR	4/4/2018
2017012020	Tiburon, City of	Tiburon Peninsula Club Expansion Project	The Tiburon Peninsula Club seeks Town approval of a CUP to construct a Junior Tennis Center that would be used to expand its current junior clinic program and provide lessons for members and non-members. Pole lights will be installed to light six existing tennis courts so that after school programs can extend until early evening hours. The proposed lighting will include 8 lamps per court. All 48 lamps will be mounted on 22-ft high poles. A one-story structure will be constructed adjacent to the north side of the existing lower tennis courts that will include two bathrooms (a total of 550 sf) and 300 sf of storage for TPC-owned tennis related equipment.	EIR	3/28/2018
2016122032	Marin County	Sir Francis Drake Boulevard Rehabilitation	This EIR has been prepared to evaluate the environmental impacts of the proposed Sir Francis Drake Blvd Rehabilitation project. The project would rehabilitate approx two miles of SFDB between Hwy 101 and the Ross Town limits in Marin county. Project components include: roadway repaving; intersection geometry and striping modifications; installation of pedestrian, bicyclist, and ADA improvements; installation of drainage improvements; and replacement and installation of water supply mains in conjunction with MMWD.	FIN	3/26/2018
1998031053	Coastal Conservancy, California State	Bel Marin Keys Unit V Expansion of the Hamilton Wetland Restoration Project	Project- Phase 1 is an expansion of the completed Hamilton Wetland Restoration Project, with the purpose of enhancing and restoring seasonal and tidal wetland habitat in SF Bay. The project will include the creation of seasonal wetland and upland habitat; the construction of a new Bayfront levee; and modification to existing site drainages, utility pipelines and pumps.	NOD	3/23/2018
2018032048	Marin Resource Conservation District	Marin Permit Coordination Program	The Marin Permit Coordination Program provides programmatic environmental review to assist landowners within the project area to efficiently implement beneficial land management projects. The PCP includes 44 conservation practices, drawn from established Conservation Practice Standards developed by USDA NRCS and designed to protect soil and water quality, increase carbon sequestration, promote agricultural sustainability, and improve wildlife habitat conditions. The PCP Program Area covers seven watersheds within Marin County (Greater Tomales Bay, Stemple Creel-Estero de San Antonio, Estero Americano, Point Reyes National Seashore, and Novato, and San Antonio Creeks). The PCP was initially adopted in	MND	3/19/2018

2004, this updated version increases the number of practices from 17-44 and expands the program area from 4-7 watersheds.

2017062019	San Rafael, City of	Kaiser Permanente: 1650 Los Gamos Drive Medical Office Building	Kaiser Permanente is proposing a project with three components: 1) The addition of medical office as an allowable use in the planned development zoning district for an existing, approx 148,000 gsf office building located at 1650 Los Gamos Dr in San Rafael, to be utilized as a medical office building; 2) The construction of an up to 476-space, three level plus upper ramp, parking structure on the existing surface parking lot located to the west of 1650 Los Gamos Dr that will primarily serve Kaiser Permanente employees working at the MOB, 3) Continued use of the existing 42 parking spaces located adjacent to 1650 Los Gamos Dr, on the 1600 Los Gamos Dr property. Kaiser Permanente has legal access to the use of those parking spaces through an easement and is not proposing any changes to the parking spaces.	EIR	3/9/2018
2018028347	Dixie School District	M. Silverira Elementary School Modernization Project	Internal classroom modifications, library modernization, fire alarm system, accessibility upgrades, courtyard improvements, and an exterior canopy at existing elementary school buildings. No new buildings or increase in building area is proposed.	RIR	3/9/2018
2017092033	College of Marin	Indian Valley Campus Facilities Improvements Project	The College of Marin Facilities Master Plan 2016-2021 includes a number of improvements for the Indian Valley campus. The college plans on constructing three of the improvement projects listed in the FMP over the next 12 months. Outdoor amphitheater: construction of an outdoor amphitheater and the replacement of adjacent pathways. Organic farm improvements: parking lot renovation, construction of three one-story classroom buildings, relocation of existing structures, and construction of a new trail and deer fence. Ohlone cluster demolition: demolition of buildings 19 and 20 with the Ohlone Cluster.	NOD	3/8/2018
2017122069	Ross Valley Sanitary District	Fiscal Year 2016/2017 Gravity Sewer Improvements Project	The project consists of rehabilitation of about 8700 ft of sewer pipeline within the Butterfield/Meadowcraft and Nokomis areas of the town of San Anselino. Various pipeline construction methods will be used. The primary objective of the project is to relieve hydraulic and structural deficiencies in the area, and to abandon an inverted siphm under Sleepy Hollow Creek at Willow Way.	NOD	3/1/2018

2010042001	St. Helena, City of	St. Helena General Plan Update	The General Plan is a long-term policy document that establishes direction to guide future land use decision, a framework to ensure the character and quality of development desired by the community, and the processes by which development and land use changes will take place. The City's current General Plan was adopted in 1993. In 2007, the City began the process of comprehensively updating the General Plan.	NOP	4/2/2018
2018042001	Calistoga, City of	Rivers-Marine Winery	Proposed use permit for a wine making facility within the city limits of the city of Calistoga. The site has GP and Z designation of community commercial. This project will establish a 10,000 case winemaking facility on a .80 acre parcel in the city of Calistoga. The project includes up to two custom crush services to be provided to outside clients. The site is accessed via an improved shared driveway off of Foothill Blvd. A total of 9,850 sf of structures and improvements are proposed. The facility will accommodate every aspects of wine production, including a tasting room.	MND	4/2/2018
2018032042	Napa County	Heiser-West Lane Vineyard Project #P15-00389-ECPA	The Heiser-West Lane Vineyard Project proposes the conversion of 5.7 acres of timberland to approximately 4.4 net acres of vineyard on the approximately 20.55-acre property within APN 024-450-0009. Three vineyard blocks are proposed to be constructed, and will include win grapes as well as internal vineyard avenues and space for vineyard maintenance operations; therefore, the gross area of the vineyard operation will be approximately 5.7 acres of disturbance. Access to the property is located off West Lane and Stone Ridge Road via a privately maintained access. The establishment of the vineyard as part of the proposed project is consistent with the current Napa County zoning designation of Agricultural Watershed.	NOP	3/16/2018
2018032038	Napa County	Dry Creek/Mount Veeder Winery Use Permit #P17-00343-UP & Variance P17-00345-VAR	Approval of a use permit to allow the construction of a new 30,000 gallon winery. A variance application is also requested to allow construction of the proposed covered crush pad 84 ft from the centerline of Mount Veeder Rd and the proposed winery building 104 ft from the centerline of Mount Veeder Rd. Both would be located within the min 300-ft winery setback from Mount Veeder Rd.	MND	3/15/2018
2018032035	General Services, Department of	Rector Reservoir Solar Project	The project would install and operate a ground-mounted 220.5-kW solar PV power plant on approx 0.6 acre of state-owned land. Project	MND	3/14/2018

			features include arrays providing approx 630 solar modules, inverters, perimeter chain link fencing, and underground conduits to connect to an existing building's electric service at the Napa County Fire Ground Training Center. The facility would be unmanned. Power generated on the project site would be released into the electrical grid.		
2018038286	Napa County	Babu Vineyard Conversion	Conversion to vineyard of 2.06 acres (1.6 net vine acres), including earthmoving activities and installation and maintenance of erosion control measures, of gently moderately sloping oak woodland, chaparral, and Douglas fir forest (slopes typically from 13% to 28% with an average slope fo approx. 17%). The project applicant has prepared an Agricultural Erosion Control Plan (ECPA) as required by Napa County Code (Chapter 18.108, "Conservation Regulations").	NOE	3/14/2018
2018038245	Napa Valley Exposition	Installation of Irrigation Sprinklers of Midway Green	The proposed project is installation of an irrigation sprinkler network and associated landscaping at the NVE's Midway Green. The general location and a site plan of the project are shown in the attached figures.	NOE	3/12/2018
2018032026	Napa County	Fantesca Estate Vineyard #P17-00147-ECPA	The project includes vegetation removal, earthmoving activities, and installation and maintenance of erosion control measures associated with development of +/-1.05 acres of new vineyard. The site plan designates development on gently sloping lands, at elevations between approx 590-650 ft above mean sea level.	MND	3/9/2018
2018038177	California State Lands Commission	General Lease - Recreational and Protective Structure Use - PRC 7855.1	Authorize issuance of a General Lease - Recreational and Protective Structure Use beginning Feb 27, 2018 for a term of 10 years, for the continued use and maintenance of an existing uncovered floating boat dock, ramp, walkway, and two pilings previously authorized by the Commission and an existing deck and retaining wall not previously authorized by the Commission.	NOE	3/9/2018
2018038167	Napa County	Upper Valley Disposal Service (UVDS) Use Permit Minor Modification P16-00180-MOD	Approval of a use permit minor modification to permit: a) construction of a 15,000 sf building to fully enclose an existing composting and recycling facility (approx 28.79 acres) site lies within the public lands zoning district; 1285 Whitehall Lane, St. Helena; APN 027-450-027. The remainder of the site is located within the ag preserve zoning district.	NOE	3/8/2018
2016022010	Caltrans #4	Capell Creek Bridge Replacement Project	Project involves installing a temporary detour bridge, installing a temporary creek diversion, installing thirteen new horizontal drains along the hillside adjacent to Capell Creek, replacing and installing culverts, demolishing the existing Capell Creek Bridge, constructing a replacement bridge on the same alignment, widening the roadway, removing the detour bridge and creek diversion, and revegetatng the project site.	NOD	3/8/2018
2018032014	St. Helena, City of	Hunter Subdivision Project	Note: Review Per Lead The proposed project includes a request to approva a tentative map to subdivide the existing 16.9-acre parcel into 51 single-family lots, one 3.4-acre parcel, and a 0.06 acre remainder parcel.	NOP	3/6/2018
2013092036	Napa, City of	Napa Renewable Resources Project	The Materials Diversion Facility (MDF) is a fully-permitted Solid Waste Facility (CalRecycle Facility No. 28-AA-0030) that receives and processes all residential and commercial source separated recyclables and yardwaste generated within the City and collected by the City's hauler. The MDF also receives and processes materials delivered by haulers servicing surrounding jurisdictions and by self-haul customers. The Applicant is proposing three improvements: 1) a Covered Aerated Static Pile (CASP) mass bed composting system with concrete slab, walls, and positive aeration system capable of composting 66,640 tons per year; 2) modification of drainage pipelines to direct all stormwater on-site to a single detention pond capable of processing 1,000 gallons per minute; and 3) installation of roof structures to cover operations.	NOD	3/5/2018
2016112032	Napa Sanitation District	Browns Valley Trunk Sewer	The proposed Project would include construction and operation of new wastewater conveyance facilities, including a new gravity trunk sewer pipeline and a new pump station. The District is considering modifications to the Project to replace the West Napa Pump Station rather than upgrade the existing station. This would involve abandoning the existing pump station wet wells, building new wet wells on the project site, and installing new pumps, accessory structures, and solar panels at the existing pump station site.	NOD	3/2/2018

2018038023	Water Resources, Department of	Lake Curry Dam, No. 14	Installation of an upstream outlet control valve	NOE	3/1/2018

SCH#	Lead Agency	Project Title	Description	Document Type	Date Received
2017122062	Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland	Construction and Maintenance of Overwater Structures in San Francisco Bay	To create a streamlined, fair, and consistent mechanism for regulating small, relatively non-invasive overwater structure projects; improve and protect water quality by requiring adherence to Best Management Practices; and ensure protection of biological resources, including fish, wildlife, and rare and endangered species by requiring avoidance of eelgrass beds and other subtidal vegetation, requiring the implementation of a mitigation and monitoring plan, prescribing the methods for pile removal and installation, limiting activities to environmental work windows, and avoiding Ridgway's Rail (formerly CA Clapper Rail) or CA Black Rail habitat.	NOD	3/26/2018
2016112035	Western Canal Water District	Western Canal Water District and Richvale Irrigation District Water Transfers from 2018 to 2022	Notes: 1 CD Environmental Impact Report to evaluate effects of water transfers from the Western Canal Water District and Richvale Irrigation District service areas to interested agencies located south of the Sacramento Valley, the San Francisco Bay Area, and south of the Sacramento-San Joaquin Delta. The transfer would originate in Butte and Glenn Counties. The transfer buyers could be in Alameda, Contra Costa, Fresno, Kern, Kings, Los Angeles, Merced, Orange, Riverside, San Benito, San Bernardino, San Diego, San Joaquin, Stanislaus, or Ventura counties.	FIN	3/21/2018
2017102060	San Francisco, City and County of	88 Broadway & 735 Davis Street Project	Notes: 1 CD The 48,620 sf project site, at 88 Broadway and 735 Davis St, is located on the block bound by Vallejo St to the north, Davis St to the east, Broadway to the south, and Front St to the west in San Francisco's North Beach neighborhood. The two-parcel, T-shaped project site currently contains surface parking lots which provide 180 public parking spaces. The project sponsors, BRIDGE Housing and the John Stewart Company, propose to construct two new buildings that would contain 178 affordable family and senior housing units, approx 6,500 sf of commercial space, and 4,300 sf of child care space on lots currently used for surface parking.	FIN	3/14/2018
2018038288	Military Department - Office of the Adjutant General	Verizon Wireless Maintenance at San Francisco Readiness Center	The CAARNG proposes to allow Verizon Wireless to maintain and upgrade its telecommunications site on an existing easement at the SF Readiness Center. The maintenance/upgrades require digging of a trench approx. 3 feet deep, 1 foot wide, and 150 feet in length, to install a utility cable.	NOE	3/14/2018
2018038229	Public Utilities Commission	1609 Cougar (San Francisco) 26th & Dolores	Sonic.Net installs telecommunications infrastructure to enhance wireless and broadband speeds.	NOE	3/12/2018
2018038222	Public Utilities Commission	Mobilitie NPC2017-137 San Francisco project	Mobilitie installs small cell antenna and fiber optic networks to enhance performance of telecommunications networks.	NOE	3/12/2018
2013122024	San Francisco, City and County of	Seawall Lot 337 and Pier 48 Mixed Use Project	The Seawall Lot 337 and Pier 48 Mixed-Use Project rezones the entire approx. 28-acre project site and establishes land use controls for the project site through adoption of the Mission Rock Mixed Use District and Mission Rock Special Use District (SUD), and incorporation of a design standards and guidelines in Design Controls. The project entails development of a mixed-use, multi-	NOD	3/12/2018

phase project at Seawall Lot 337 and Parcel P20, rehabilitation and reuse of Pier 48, and construction of approx. 5.4 acres of net new open space, for a total of approx. 8 acres of open space on the project site. The project will include up to 2.7 to 2.8 million gsf. of mixed uses on 11 development blocks. The mixed-use development will comprise approx. 1.1 to 1.6 million gsf of residential uses (estimated at 1,000 to 1,600 units, 40% of which would be designated as below market rate), approx. 972,000 to 1.4 million gsf of commercial/office uses, and 241,000 to 244,800 gsf of active/retail and production uses on the lower floors of each block. Additionally, the project will include up to approx. 1.1 million gsf of above- and below-ground parking (approx. 3,000 spaces) in one or two centralized garages; 100 additional parking spaces would be allowed throughout the remaining parcels on the site. also as part of the project, 242,500 gsf at Pier 48 would be rehabilitated for industrial, restaurant, active/retail, tour, exhibition, and/or meeting space use. consistent with the voter approved Proposition D (November 2015), the 11 blocks on Seawall Lot 337 will be developed with building heights ranging from 90 feet to a maximum of 240 feet for the tallest building, excluding the mechanical and other accessory penthouse roof enclosures and unoccupied building tops, subject to specified standards.

2018038191	California State Lands Commission	Non-Exclusive Geological Survey Permit - W 6005.187	Authorize issuance of a non exclusive general permit to conduct geological surveys for the period Feb 27, 2018, through Feb 26, 2019, within filled tide and submerged lands at Sanchez Channel.	NOE	3/9/2018

Date Range: 2018-03-01 to 2018-04-30

SCH#	Lead Agency	Project Title	Description	Document Type	Date Received
2018042010	Pacifica, City of	505 San Pedro Avenue Project	The proposed project would include the demolition of the on-site half-pipe feature and the construction of three buildings: a two story surf shop building with a storage basement, a skatepark with an associated two-story storage area, and a two-story mixed use building with retail space on the ground floor and two residential units on the second floor. In addition, the project includes a parking lot with 24 uncovered spaces and two covered spaces, as well as associated infrastructure, pedestrian walkways, and landscaped areas.	MND	4/4/2018
2006062150	Pacifica, City of	Fassler Avenue Residential Project	Project includes the subdivision of airspace and construction of a 24-unit condominium development. The proposed project development area consists of 53,627 sq. ft. (approx. 1.23 acres) on the 11.2 acre site. Site access is proposed by one vehicular entrance via Fassler Avenue in the form of a private circular driveway that would connect to all of the buildings as well as provide guest surface parking spaces. The proposed project would include a butterfly and hummingbird garden, an upper and lower picnic area, other open space areas, and a footpath that would provide connection between the open space areas and the western portion of the residential development.	NOD	3/26/2018
2005062052	San Carlos, City of	Winding Way Tax Exchange Agreement for Annexation	CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2017-0576-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Ron Grove. The project is limited to the replacement of an existing culvert, installation of three new culverts and road improvements to facilitate development of 5 single family homes on two acres of property. The first and most downstream culvert will be a 40-foot long high-density polyethylene pipe (HDPE) 12 inches in diameter with rip rap outfall. The second culvert will also be an HDPE pipe, approx. 50 feet long installed 18 inches below the road, with rip rap outfall. The third culvert will be a 30-inch diameter HDPE pipe, approx. 80 feet long with concrete head walls at the inlet and outlet.	NOD	3/26/2018
2018032059	Half Moon Bay, City of	Hyatt Place Hotel Project	Located in the city of Half Moon Bay, the project site is a triangular parcel that is approx 5 acres in size and is located north of the intersection of Cabrillo Hwy and South Main St. The project site is bounded by the Cabrillo Hwy on the west, Main St on the east, and the James Ford Auto Dealership on the north. The project has four seasonal wetland features located along the western boundary of the study area as well as ruderal grasslands which potentially could meet the criteria for a Coastal Commission one-parameter wetland feature. The city is fully within the Coastal zone, and the project site is within the CCC appeals jurisdiction. The project includes the construction of a three-story hotel with related conference and kitchen facilities. There are two variants of the proposed project.	NOP	3/21/2018
2018038375	Caltrans #4	Inject grout to repair sinkhole and repair AC pavement - 1Q190/0418000213	Repair a sinkhole by injecting grout and repair AC paving. This repair will restore the structural integrity of the roadway and make the transportation corridor safety.	NOE	3/19/2018

2002092050	Redwood City	Kaiser Permanente - Redwood City Medical Center Master Plan	Project consists of approval of a Final Removal Action Workplan by the DTSC for the 1100 Veterans Blvd., Kaiser Permanente-Redwood City Site (Site) prior to its redevelopment. DTSC is overseeing cleanup at the Site under a Voluntary Cleanup Agreement with Kaiser Foundation Hospitals. A four-story medical office building with a three-story underground parking structure are to be constructed at the Site. The purpose of the Removal Action Workplan is to identify the actions to reduce potential risk to human health from the contaminants of concern: volatile organic compounds (VOCs) including, tetrachloroethene (PCE), trichloroethene (TCE), and cis-1,2-dichloroethene (cis-1,2-DCE). Removal action activities to be conducted pursuant to the Removal Action Workplan include the following: Approx. 14,500 cubic yards of the 77,000 cubic yards of soil to be excavated for the underground parking structure that has been determined to be contaminated and will require disposal at a permitted landfill. Groundwater dewatering will be conducted as part of the excavation for the three-story underground parking structure. Groundwater would be extracted, treated with granular activated carbon onsite to remove the VOCs and discharged under a permit from the RWQCB. Post construction groundwater monitoring.	NOD	3/16/2018
2018038285	San Mateo County Resource Conservation District	Granny Flats Reservoir Repair Project	Granny Flats Reservoir is owned and operated by Cuesta La Honda Guild as a raw water supply reservoir for the homes which make up this common interest development in La Honda, CA. The Granny Flats Reservoir Repair Project will restore the original reservoir capacity, install a high-density polyethylene liner and update piping and aeration infrastructure to meet current water quality and disinfectant by product treatment standards. After sediment is removed, the existing basin will be regraded to a depth of 10 to 12 feet.	NOE	3/14/2018
2018038284	San Mateo County Resource Conservation District	Pescadero Creek Streamflow Enhancement Project. Carpy Ranch	The proposed project would create a new agricultural water storage pond, approximately 44 acres in size. This new pond would be used as a regulating reservoir from April-July, which would reduce the instantaneous rate of diversion from Pescadero Creek. Under the proposed project, late summer and early fall all diversions from Pescadero Creek would cease, with the reservoir supplying the remaining irrigation needs for the growing season.	NOE	3/14/2018
2018038227	Public Utilities Commission	Mobilitie NPC2017-130 Menlo Park project	Mobilitie installs small cell antenna and fiber optic networks to enhance performance of telecommunications networks.	NOE	3/12/2018
2018038246	East Palo Alto, City of	US 101/University Avenue Pedestrian Overcrossing and Interchange Improvements	The City of East Palo Alto, in cooperation with Caltrans, proposes to construct a 12-foot wide Class 1 facility which includes 560-foot long, four-span pedestrian overcrossing (POC) over U.S. 101 in separate structure on the north side of the existing U.S. 101/University Avenue interchange between Donohoe Street and Woodland Avenue. Additionally, the existing southbound US 101 to westbound University Avenue loop off-ramp will be widened from three to four lanes to include two left turn two right turn lanes at University Avenue. The northbound US 101 loop off-ramp will also be realigned with a tighter radius curve. A staging area is proposed in the empty lot (APN #063-292-190) on Donohoe Street across from the terminus of the northbound off-ramp. The equipment anticipated to be used includes several backhoes, air compressors, rotary drilling rig, several concrete pumps, lattice boom lifting cranes for lifting rebar cages, and pavers, rollers, loaders, and crawlers.	NOE	3/12/2018
2018038195	California State Lands Commission	Consider a temporary moratorium on the consideration of lease applications on certain filled and unfilled sovereign public trust lands and authorize staff to	Authorize the temporary moratorium on the acceptance and consideration of lease applications for the subject property for no longer than 12 months, unless the commission directs otherwise; direct staff to conduct a public trust needs assessment of the subject property and report back to the Commission on public trust needs in the area.	NOE	3/9/2018
2018038164	San Mateo	San Gregorio	The proposed project would replace an existing irrigation pond with a	NOE	3/8/2018

	County Resource Conservation District	Creek Streamflow Enhancement Project, Blue House Farm	new pond, approx 4.3 acres in size. This new pond would be used as a regulating reservoir from April-July, which would reduce the instantaneous rate of diversion from San Gregorio Creek. Under the proposed project, late summer and early fall all diversions from the creek would cease, with the reservoir and wells supplying the remaining irrigation needs for the growing season.		
2015052007	San Mateo County Community College District	San Mateo County Community College District 2015 Facilities Master Plan Amendment	The construction of a 70-unit residential project on an 8-acre vacant site consisting of 40 single-family detached homes and 30 multi-family units, including new private street, water, sewer and storm drain infrastructure, parks, and landscaped common areas. The project was analyzed in an EIR for the San Mateo County Community College District Facilities Master Plan Amendment, certified in Dec. 2015, which determined that any environmental impacts could be reduced to a less-than significant level with implementation of mitigation measures. Since the proposed project is substantially similar to the project analyzed in the Certified EIR, an EIR Addendum was prepared that determined the conclusions in the 015 EIR remain valid and no supplemental or subsequent environmental analysis is needed pursuant to CEQA Guidelines Sections 15162, 15163, and 15164..	NOD	3/8/2018
2018038150	Fish & Wildlife #3	BCMWCO Landslide Repair Redwood Avenue and Butano Creek (Lake or Streambed Alteration Agreement No. 1600-2017-0532-R3)	CDFW has executed Lake or Streambed Alteration Agreement No. 1600-2017-0532-R3, pursuant to section 1602 of the Fish and game code to Butano Canyon Mutual Water Co. The project consist of repairs to a failed embankment along Redwood Ave. Embankment failure caused the embankment and road to slide downslope towards Butano Creek following Jan 2017 storms. The project includes the building of a soldier pile wall approx 40-ft long consisting of installation of poured in place concrete piers, steel posts, drain rock, an energy dissipater, a pedestrian railing, and a debris control fence (i.e., silt fence).	NOE	3/8/2018
2018032004	San Mateo County	Bewley Single-Family Residence	Coastal development permit, planned ag development permit, design review permit, and a grading permit to allow for the construction of a 4,500 sf single-family residence, a 554 sf detached garage, and an 1,146 sf detached accessory buildings. The project also includes the construction of approx 645 lf of new driveway with 3 turnarounds and a small bridge to cross an existing culvert. In order to prepare the building sites and construct the driveway, the project involves 3,483 cy of grading.	MND	3/2/2018

Query Parameters: Santa Clara None All

Date Range: 2018-03-01 to 2018-04-30

SCH#	Lead Agency	Project Title	Description	Document Type	Date Received
2018042014	Santa Clara, City of	3625 Peterson Office Project	As proposed, project would demolish the existing 200,000 square foot office building and parking lot and construct two, approximately 338,155 square foot office buildings, for total of 676,310 square feet. The two buildings would be eight stories tall (approximately 129.5 feet to the parapet and 138.5 feet tall to the top of the roof screens). Access to the project site would be provided via one driveway on lakeside Drive, two driveways on Peterson Way and three driveways on Tannery Way. In addition, the project proposes a four-level, above-grade parking structure with an attached 13,370 square foot, one-story amenity building. The project would have approximately 370 surface parking spaces. The parking structure, in combination with the surface parking, would provide approximately 2,280 parking spaces.	NOP	4/5/2018
2018032078	Gilroy, City of	Hecker Pass Specific Plan Amendment - Roundabout, Bike Path, Fencing Language, and Traffic Mitigation	The proposed project includes four components: 1) changing the planned Hecker Pass Hwy and Third St intersection from a standard intersection to a one-lane roundabout; 2) addition of a class I bike path south of Hecker Pass Hwy; 3) changes to specific plan language related to fencing within the Hecker Pass Hwy setback corridor, as well as other fencing restriction modifications in the specific plan; and 4) elimination/modification of two specific plan EIR transportation-related mitigation measures. Approval of the proposed project would require text and mapping changes to the Hecker Pass SP, and to the SP development agreement. The proposed roundabout is intended to provide secondary access to the SPA, improve overall traffic circulation, and improve safety and access.	MND	3/30/2018
2018032077	Santa Clara, City of	Moonlite Lanes Townhomes Project	The city is proposing to redevelop a 2.88-acre parcel at 2780 El Camino Real with a residential apartment complex. The project site is bordered by El Camino Real to the north, San Tomas Expressway to the east, and Kiely Blvd to the west. Mixed use land uses are located to the north of the project site, and residential land uses are located south of the project site. The proposed project includes 58 dwelling units plus associated landscaping and parking. The project would serve approx 158 new residents. Access to the site would be provided through one driveway, with an entry point at the northwest corner of the project site from northbound Kiely Blvd.	MND	3/30/2018
2018032073	East Palo Alto, City of	EPACenter Arts at 1950 Bay Road	The project proposes subdivision of a three acre parcel and construction of a community arts and music center on the northern approx two acres of the project site. The approx 23,815 sf arts and music center would contain classrooms, studios for visual arts, a theater, administrative offices, a community cafe, a performance theater and other related uses.	MND	3/28/2018
2018032072	Mountain View, City of	777 West Middlefield Road Project	Project is an infill project involving redevelopment of an approx. 9.84 acre-site between West Middlefield Road and North Shoreline Blvd. The project site is currently occupied by approx. 208 multi-family residential units within multiple building as well as associated parking and common areas. The project proposes a General Plan Amendment and Rezoning to allow the demolition of the existing buildings and the development of up to 716 new residential units (apartments) in three separate buildings, with subterranean parking	NOP	3/28/2018

under each building. The total amount of new uses proposed is approx. 782,512 sf. A linear park/paseo, bicycle path would be added as well. The existing residential buildings and surface parking lots would be demolished and trees and vegetation would be removed and replaced.

2018032070	Palo Alto, City of	3265 EL Camino Real Mixed-Use Project	3265 El Camino Real [15PLN-00312]:Request for Architectural Review for a new Three Story Mixed Use project with 282 sf of commercial space and three residential units (4,492 sf). The applicant also seeks a variance to the min mixed use ground floor commercial floor area ratio and design enhancement exception to reduce the required driveway width from 20-ft to 16-ft six in. Environmental assessment: an IS/MND was circulated for public comment from 3/23/18 to 4/23/18. Zoning district:CS.	MND	3/27/2018
2006012020	Coastal Conservancy, California State	South San Francisco Bay Shoreline Phase I Study	Project would construct flood protection levees between Coyote Creek and Alviso Slough to protect north San Jose including the community of Alviso and the San Jose/ Santa Clara Regional Wastewater Facility; restore approx. 3,000 acres of former salt pond to tidal wetlands and upland transition habitat; re-route and add new trails, viewing platforms and benches and extend the bicycle trail adjacent to SR 237.	NOD	3/26/2018
2017082053	San Jose, City of	San Jose-Santa Clara Regional Wastewater Facility - PondA18 South Gate Levee Repair	CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2017-0399-R3, pursuant to section 1602 of the Fish and Game Code to the project applicant, City of San Jose. Project includes erosion repair to existing levee by installing 167 feet of sheet piles on both the west and east sides of the levee, north and south of the Pond A18 South Gate. Location of the sheet piles will be within the levee, between the levee crown and levee slope (not installed in water). The steel sheet piles will be driven using a vibratory pile driver. The levee crown will be regraded and voids between the sheet pile and the remaining section of levee will be backfilled with rock aggregate.	NOD	3/23/2018
2018032060	Morgan Hill, City of	Zip Thru Express Car Wash Project (Caputo-Huang)	The proposed project would include site preparation, grading, and constructing of a car wash on the southern one-acre portion of the 1.45 acre, vacant parcel. Overall, approx 43,070 sf (0.99acre) of the subject parcel would be developed as part of the project, while the remaining 20,092 sf (0.46 acre) would be left vacant and undeveloped with the exception of limited landscaping improvements along the Caputo Dr frontage. The 0.46 acre area would not be used for construction equipment staging.	MND	3/23/2018
2018038433	Public Utilities Commission	Mobilitie NPC2017-142 Santa Clara small cell network project	Mobilitie installs small cell antenna and fiber optic networks to enhance performance of telecommunications networks.	NOE	3/20/2018
2018038393	Fish & Wildlife #3	Pedestrian Bridge near Paseo Del Roble and Page Mill Rd (Streambed Alteration Agreement No. 1600-2017-0502-R3)	CDFW has executed Streambed Alteration Agreement No. 1600-2017-0502-R3, pursuant to section 1602 of the fish and game code to the project applicant, Town of Los Altos Hills. The project includes construction of a 6-ft wide x 35-ft long pedestrian/equestrian bridge.	NOE	3/19/2018
2014112037	Sunnyvale, City of	Sunnyvale Water Pollution Control Plant Primary Treatment Facility	The proposed project would replace existing, aging facilities at the WPCP, including replacements of the headworks facility, primary treatment facilities, switchgear building, standby generator, and heat recovery system at the power generation facility. Access roadway and fencing would also be altered or replaced, a stormwater channel along the southeast boundary of the WPCP site would be filled, and dewatering would be relocated within the WPCP site.	NOD	3/15/2018
2018038289	Military Department - Office of the Adjutant General	Gilroy Readiness Center Camphor Tree Removal Project	The CAARNG proposes to remove a Camphor tree that exists on the property boundary between the Gilroy Readiness Center and the adjacent property. The adjacent property is in the process of constructing a retainer wall and needs to have the tree removed to complete their project.	NOE	3/14/2018

2002022004	Santa Clara Valley Transportation Authority	VTA's BART Silicon Valley - Phase II Extension Project	Note: NOA - FINAL SEIS/SEIR available at: www.vta.org/bart/environmentaldocumentsphasell . VTA's BART Extension would extend the BART system from the phase I terminus in the Berryessa neighborhood of San Jose for approximately 6 miles through central San Jose and terminate in Santa Clara. The alignment would include an approximately 5-mile long tunnel, or subway, through downtown San Jose and an end of the line maintenance facility. Four stations are under consideration: Alum Rock/28th St, Downtown San Jose, Diridon, and Santa Clara. Depending upon funding availability, initial revenue service on the BART Extension alternative is targeted to begin in late 2025/2026. VTA is proposing to construct transit-oriented joint development at the four BART stations and at two mid-tunnel ventilation structure locations.	FIN	3/13/2018
2018038234	Public Utilities Commission	Mobilitie NPC2017-128 Santa Clara small cell network project	Mobilitie installs small cell antenna and fiber optic networks to enhance performance of telecommunications networks.	NOE	3/12/2018
2018032029	Fish & Wildlife #3	Ostwald Waterline Replacement Project	Note: Review Per Lead San Jose Water Company is proposing to replace the existing 30-in diameter pipeline that extends within Los Gatos Creek from the Ostwald Dam Intake facility to an existing pipeline connection located 1,575 ft downstream. The project would disturb the bed and bank of Los Gatos Creek, requiring a Lake or Streambed Alteration agreement under section 1602 of the fish and game code. CDFW's issuance of an LSAA requires compliance with CEQA b/c SJWC is a private water company that cannot serve as lead agency, CDFW has assumed lead agency status for the project under CEQA.	MND	3/9/2018
2018038162	Caltrans #4	SCL 280 Bridge Seismic Restoration (EA:04-2J750)	At Bird Ave of Overcrossing, the project proposes to retrofit the bridge by strengthening the abutment wall and extending its seat and also proposes to install steel column casing at Bent 2. At Arastradero Undercrossing, the project proposes a retrofit work by installing steel column casting at Bent 2.	NOE	3/8/2018
2018032021	Milpitas, City of	Element and Aloft Hotels Project	The proposed project involves the construction of two separate hotels over two phases. During first phase of development, the Element Hotel would be constructed on the southeast corner of the parcel. The second phase of development would include the construction of the Aloft Hotel on the north side of the parcel. The Element Hotel would be a max of 67 ft high and five stories in height and would include 194 rooms. The Element Hotel would be a total of 109,400 sf and employ approx 65 employees including 53 full-time employees and 12 part-time employees. The Aloft Hotel would be a max of 65 ft high and five stories in height and would include 155 rooms. The Aloft Hotel would be a total of 74,190 sf in size and employ approx 45 employees including 36 full time employees and 9 part-time employees.	MND	3/7/2018
2018032019	San Jose, City of	San Jose Water Company Columbine Station Improvements Project	The proposed project would demolish the existing Columbine Reservoir, construct two pre-stressed concrete tanks and associated infrastructure within the Columbine Station. Both tanks would have an interior diameter of 205 ft and an operating depth of 22 ft, which equates to a combined usable volume of approx 10 M gallons of water. Additional site improvements involve the remediation of hazardous materials in the existing storm water sump, which is located to the southwest corner of the station. Up to 64 trees (49 ordinance size and 15 non-ordinance size) would be removed from the station to accommodate the construction of the new tanks and supporting infrastructure.	MND	3/7/2018
2018032018	Santa Clara Unified School District	Agnews East School Campus Facilities Expansion Project	The proposed project is the expansion of planned school facilities and uses on the 55.5-acre school site. The project proposes to revise the project analyzed in the Agnews East EIR by increasing the capacity of the proposed school campus from 2,800 students to 3,800 students, including 1,800 high school students, and 800 elementary school students. In turn, the school staffing would be increased from 220 to 348 staff members, including 173 high school, 100 for the middle school, and 75 for the elementary school. In addition to the	NOP	3/7/2018

			football field, the project proposes to install lighting, scoreboards, and public address systems at five turf fields and the swimming pool located on the campus.		
2018038101	Energy Commission	Optimization and Demonstration of JBEI Technologies for the State of California	The purpose of this Agreement is to address conversion technology challenges and biomass strain optimization challenges across volumetric scales or renewable fuel production. The Joint Bioenergy Institute will partner with Aemetis to develop and demonstrate a conversion technology that involves the deconstruction of biomass feedstocks for advanced biofuels production. Research will be completed at the Joint Bioenergy Institute and demonstration of the technology will be completed at both the Joint Bioenergy Institute's and Aemetis' existing facilities. Demonstration activities are at lab scale.	NOE	3/6/2018
2018032013	Gilroy, City of	Monterey Apartments	Note: Review Per Lead The project includes the construction of a five-story residential building containing 78 residential units. The proposed residential units include a combination of one, two, three, and four-bedroom units. The project would redevelop a previously developed property currently occupied by a religious institution and a granite slab supply business that is surrounded by other urban land uses. The project includes a rezoning to high density residential consistent with the adopted housing element.	MND	3/6/2018
2018032008	Santa Clara, City of	2305 Mission College Boulevard Data Center Project	The 15.7-acre project site, located at 2305 Mission College Blvd, is currently developed with a two-story 358,000 sf office/R&D building and a paved parking lot. The project proposes to demolish the existing improvements on the site to construct a two-story 495,610 sf data center building. The data center building would house computer servers for private clients a secure and environmentally controlled structure, and would be designed to provide 60 MW of information technology power.	MND	3/5/2018
2018032009	Santa Clara, City of	3402 El Camino Real Mixed Use (The Deck) Project	The site previously contained a 21,000 sf commercial/retail building, but it was damaged by a fire in 2016; the remnants of the building were demolished and removed from the site in April 2017. The project would demolish the existing restaurant, remove six non-Heritage trees, and construct a mixed-use development with 66 residential units and 9,330 sf of retail. The CT zoning designation allows commercial uses, but does not allow housing as a permitted or conditional use (Santa Clara City code chapter 18.38). A planned development rezoning is proposed as part of the project to allow housing on the site.	MND	3/5/2018
2018032007	Santa Clara Valley Water District	Guadalupe Dam Seismic Retrofit	The proposed project is intended to retrofit the Guadalupe Dam (Dam) and associated facilities to address seismic safety concerns, satisfy District operational requirements, remove the Reservoir operating restriction, and restore normal water supply by: 1) Reconstructing and thickening the Dam; 2) Constructing a new outlet works system; 3) Increasing the capacity of the spillway; 4) Improving emergency Dam access by realigning Hicks Road and constructing a new bridge from Hicks Road across the spillway to the Dam crest, and a new bridge over Guadalupe Creek below the Dam ; and 5) Creating borrow, disposal, and staging areas for Project construction.	NOP	3/5/2018

2015082023	Vacaville, City of	Centennial Urban Greening and Trails	Project consists of 1) Constructing two paved pedestrian/bike paths along the south bank of Upper Horse Creek and the north bank of the middle Horse Creek; 2) restoring the indigenous flora along the creek bank for urban greening. The project boundaries are from the top of the bank of the creeks to roughly 50 ft. out, totaling 16 acres of land. Each path will be 10 feet wide aggregate base with an asphalt cap and 1 ft. of aggregate on either side, for a total of 12 ft. The paths are 10 ft. or greater from the top of the bank. The path's total lineal length is 3,600 ft.	NOD	3/26/2018
2015072037	Caltrans #4	I-80 Express Lanes Project	CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2017-0574-R3, pursuant to section 1602 of the Fish and Game Code to Caltrans as represented by Osama El Hamshary. The Caltrans Permittee in cooperation with the Solano Transportation Authority and the Metropolitan Transportation Commission proposes to construct High-Occupancy Vehicle/High Occupancy Toll Lanes (Express Lanes) in the westbound and eastbound directions of I-80 from west of Red-Top Road to east of Interstate 505 (I-505) in Solano County, CA.	NOD	3/23/2018
2018032062	Solano County	Withdrawn - Guru Nanak Sikh Temple expansion	Note: Withdrawn per lead agency on 3/23/2018. The applicant is proposing an expansion of the Guru Nanak Sikh Temple located along Rockville Rd, within unincorporated Solano County. The primary component of the project involves construction of a new 14,949 sf temple located near the southwest corner of the property. This structure includes a 9,000 sf prayer hall, lobby, restrooms, storage, and utility rooms. The proposal would accommodate an increase from 200-600 persons per Sunday service.	Neg	3/23/2018
2018038221	Public Utilities Commission	Mobilitie NPC2017-136 Solano small cell network project	Mobilitie installs small cell antenna and fiber optic networks to enhance performance of telecommunications networks.	NOE	3/12/2018
2018032031	Solano County	Recology Hay Road Landfill Conditional Use Permit amendment No. 2	Project would expand the landfill disposal area to include an additional 24-acre area located within the project site. This would increase the landfill's total disposal capacity by approx. 8.8 million cubic yards and extend the estimated life of the landfill by approx. 9 years. The landfill's existing groundwater and landfill gas monitoring network, as well as its leachate collection system, would also be modified to include the additional disposal area. The CUP would also be amended to allow for a peak day limit of 2,750 tons per day with a 7-day average limit of 2,400 tpd of disposal as well as the addition of a construction and demolition sorting line, disposal of friable asbestos within additional areas of the landfill, and deepening of the existing soil borrow pit.	NOP	3/12/2018
2018038212	Solano County	Minor Revision No. 2 to Use Permit No. U-06-22 of Karen and Alan Levens (Alan's Canine	For the continued operation of a dog training facility and boarding kennel	NOE	3/12/2018

2018032025	Vacaville, City of	Training). 5529 Hay Rd. Vacaville, CA Drake's Point Radio Tower Project	The project is a CUP request to construct a new emergency communication radio tower on top of Drake's Point in the Glen Eagle Open Space, located in northwest Vacaville, CA. The project site would occupy 0.14 acres. The project area would temporarily disturb 21.36 acres. The project would replace an existing 37 ft tall wooden pole with a new steel monopole radio tower no taller than 60 ft. The proposed equipment building would be 12'8"x12'8" and 9 ft tall. Existing power lines that are overhead and underground would be upgraded, as necessary, to provide the appropriate power to the project site.	MND	3/9/2018
2016082013	Water Resources, Department of	Decker Island Restoration Project	The Central Valley Regional Water Quality Control Board is issuing a 401 Water Quality Certification for the subject Project. The 11.37-acre Project includes lowering the northern levee, installing a temporary crossings to access the southern berms, reconfiguring the southern berms, and widening the southern levee breach on Decker Island.	NOD	3/8/2018
2017062068	Vacaville, City of	The Farm at Alamo Creek	Development of a specific plan for a mix of residential, commercial, parks and open space.	EIR	3/7/2018
2018038046	Water Resources, Department of	Fairfield City Vegetation Removal	DFD staff will maintain all vegetation within the DWR right of way, in three locations: Marigold Drive, Matthew Drive, and Railroad Avenue. Vegetation will be maintained by mowing to a four-inch maximum and removing/limbing trees inside the DWR perimeter of each of the three locations. Work will be performed monthly during the fire season (May - October), and on an as needed basis throughout the 2018 season, as an ongoing maintenance process. Mowed vegetation will be left in place as mulch.	NOE	3/2/2018
2018038045	Water Resources, Department of	North Bay Aqueduct Dover Fence Vegetation Removal	DFD staff will maintain all vegetation within the DWR ROW. Vegetation will be maintained by mowing to a four-inch maximum height and removing/limbing trees inside the DWR perimeter, an area of approximately four acres. Mowed vegetation will be left in place as mulch. Access to the site is via Dover Avenue. The entire project is within DFD right of way.	NOE	3/2/2018

streaming video of fire activity information across a broad geographical range. Information collected would be used to assess fire suppression.

2018032028	Rohnert Park, City of	Redwood Crossings General Plan Amendment & Rezone	The project proposes an amendment to the land use and zoning designations of the 6.5 acre project site located southeast of the intersection of Business Park Dr and Dowdell Ave in the city. Under the proposed project, the land use and zoning of the project site would be amended from industrial to high density residential to allow for future development of up to 156 residential apartment units.	MND	3/9/2018
2018032010	Cloverdale, City of	Vista Oaks Subdivision Project	The project proposes to develop 33 single family homes on currently undeveloped land. The applicant is requesting approval of a precise development plan, a GPA, a rezone to planned unit development district, and tentative subdivision map to create 33 lots on approx 42.62 acres. The proposed lots range in area from 5,914 to 328,857 sf and the houses range in area from 1,896 to 3,025 sf. Vista View Dr would be extended through the site and would connect with the existing North Cloverdale Blvd. The portion of Vista View Dr within the site boundaries would be renamed Shannon Dr. It would serve as the main entrance for the development, and would feature a 6-ft tall stone sign at the corner of North Cloverdale Blvd. A gated entrance at the south end of Shannon Dr for emergency vehicles.	MND	3/5/2018
2007072041	Petaluma, City of	Sid Commons (Oak Creek II) Apartments	The project includes a PUD Amendment, ZMA, VTP Map, and SP and architectural review to accommodate construction of a 278 unit apartment project on the project's 15.45 net developable acres. The project application includes a proposed amendments to the 1982 Oak Creek Apartments PUD that governs the northern portion of the project site, and a rezone of the vacant area of the Oak Creek Apartments PUD to residential 4, consistent with the existing Medium density residential GP LUD. The project includes a proposed new at-grade crossing over the SMART rail tracks that requires approval by the CPUC. Terracing of the west bank of the Petaluma River along the project site frontage and implementation of a habitat mitigation plan is also proposed.	EIR	3/1/2018
2018032002	Santa Rosa, City of	Los Alamos Trunk Sewer Replacement Project	The city of Santa Rosa is proposing to replace the existing Los Alamos trunk sewer, identified as essential to meeting future city demands by the 2014 Master Sewer Plan Update. The Los Alamos trunk sewer will be reconstructed within existing public ROW roads or pathways. Portions of the new trunk sewer will be mostly realigned into the public ROW where the existing trunk sewer is currently inaccessible for maintenance on private property.	MND	3/1/2018
2018038008	Fish & Wildlife #3	Jacobsen Road Bridge Installation (Lake or Streambed Alteration Agreement No. 1600-2017-0294-R3)	The California Department of Fish and Wildlife has executed Lake or Streambed Alteration Agreement number 1600-2017-0294-R3, pursuant to Section 1602 of the Fish and Game Code to Asellus Sonoma LLC. The project is limited to the installation of one approximately 70-foot long by 12-foot wide steel bridge at Site A and one approximately 50-foot long by 12-foot wide steel bridge at Site B. Both sites across Willow Brook. The bridge at Site A will be constructed over and above an existing steel bridge that will remain due to attached utility wires. Additionally, a storm drainpipe will be attached to the existing bridge to convey runoff to a reservoir for agricultural use. The bridges at sites A and B will provide vehicular crossing to all three parts of the property that are separated by the creek's configuration. Precast concrete abutments will be installed on either side of Willow Brook at the locations for the proposed bridges. All concrete abutments will have dimensions that are approximately 12-feet by 5-feet by 5 feet.	NOE	3/1/2018
