YOUR
FEEDBACK!**

Apply for your ITS California Scholarship now

Joint ITSCA/CTF Scholarship

Thanks to a partnership with California Transportation Foundation, up to two scholarships will be awarded to advance academic studies and careers in the field of ITS. Eligible students must be Masters/Ph.D. students in an accredited university in California, studying any ITS-related field including, for example, engineering, computer science, transportation planning, or public policy.

VALUE  \$5,000 each for the 2024 – 2025 academic year

Diversity, Equity, and Inclusion (DEI) Scholarship

VALUE  Two scholarships, \$2500 each, to students graduating high school and entering into the field of transportation

FOR DETAILS

For the fifth year, ITS California is proud to host a donation event in conjunction with our Annual Conference and Exhibition. This year we will be donating to benefit Self-eSTEM <https://selfestem.org/>. Founded by Adamaka Ajalo in 2014, this wonderful organization based in Oakland has thus far supported more than 700 girls with empowerment, resources, and support to succeed in STEM-related careers. ITSCA will be offering an opportunity for our member organizations and attendees to join us in donating to this valuable, local volunteer/donor supported non-profit that provides free services, camps, and programs to promote STEM to girls and young women in the Bay Area. We are reaching to raise money for 50 laptops to be used by Self-eSTEM program participants.

Self-eSTEM!
